

Description: Concentrated dishwashing detergent with a pleasant lemon scent and skin cosmetic attributes. It does not contain foaming agents, caustic potash or fried oil

Suitable for: All professional and home kitchens

Application instructions: It is highly recommended that the product is diluted with water before use. For demanding cases dilute with water at a 1/3 ratio. For use on lighter dirt, use at a 1/5 ratio. For use on cosmetic equipment, mix at 1:1 with ZeoClean and use the mixture for washing. Lack of foam indicates that the cleaning process is successful, as no natural soap will produce foam in case of excessive dirt

Precautions: None

pH: 7 ± 0.5

Ingredients: Contains at least 5% but less than 15% anionic surfactants, methylchloroisothiazolinone and methylisothiazolinone preservative, fragrance, limonene and zeolite
