

Product Description: Self-biodegradable cleaning and polishing liquid for stainless steel surfaces. In parallel use with other ZeoTec detergents it can leave a unique gloss effect and will not allow the re-accumulation of dust for a reasonable period of time

Areas of application: INOX and glossy surfaces

How to apply: Spray undiluted product on the desired surfaces. Wipe with a microfiber cloth with parallel movements. Dilute 1:1 with deionized water and use in the water tank of the car windscreen wipers

Exceptions: None

pH: 7 ± 0.5

Ingredients: Less than 5% anionic surfactants. Contains methylchloroisothiazolinone and methylisothiazolinone preservatives
