

Description: Specialized organic pollutant cleaner designed to effectively and hygienically clean areas and equipment overloaded with organic material from anaerobic or aerobic bacterial activity. It repels insects and rodents. Its frequent use prevents the clogging of sewage pipes. Its wastewater supports the operation of biological treatment plants

Suitable for: Recycling and garbage bins, sewers, tools, road cleaning sweepers, water high pressure cleaning equipment, garbage trucks, organic material tanks, street markets, sidewalks, butchers, fisheries and food processing companies

Application instructions: For road and sidewalk cleaning dilute at a 0.25% - 1% ratio and spray with a water hose. For use on vehicles and cesspits (plastic and metal surfaces) dilute at a 10% - 15% ratio, wait 2 minutes and rinse with water at room temperature. For bucket cleaning, dilute at 2.5% in the bucket washer (40 °C, 120 bar) or 10% - 15% when spraying by hand and wait 2 minutes before rinsing

Precautions: The product should not be used on varnished wood or by people allergic to citronella

pH: 12.5 ± 0.5

Ingredients: Contains <5% anionic, non-ionic surfactants and GLDA, zeolite, glutaminic acid mixture and citronelle fragrance
