

Description: Specialized alkaline, odorless, general-purpose detergent. Suitable for everyday use with respect to the user, the surface, the environment and public health. The product can be diluted due to the high concentration, depending on the density of stains on the surface. It is ideal for dissolving sediments from vegetable, animal and mineral fats

Application areas: Suitable for use in kitchens, floors, walls, tables, chairs, textiles, vehicles, food stalls, schools, nursery stations, hospitals, restaurants, cafes, bars, stadiums, refineries, hotels, waiting halls, public areas and transportation means

Applications: For hard, medium or chronic dirt apply directly and rinse off or wipe with a damp cloth. For use with a pressure washing machine use the product at 25% dilution. For odorless floor mopping pour 50ml in a bucket and apply. To clean food processing surfaces use a mix 20% of the product together with 5% of Deo (ZeoTec product). Rinse off with water if necessary

Exceptions: Do not use on varnished floors and furniture

pH: 12.5 ± 0.5

Ingredients: Contains <5% anionic and non-ionic surfactants, GLDA, methylchloroisothiazolinone and methylisothiazolinone preservative and zeolite
