

## ZEO CARBON

### Technical Data Sheet

**Product name:** Zeo Carbon - Powerful charcoal cleaner

**Product description:** Special liquid detergent for use on charred dirt. Ideal for dissolving fatty carbohydrates (including animal, vegetable and inorganic fats). Suitable for heavy industrial use, equipment, machinery, fireplaces and other surfaces with burnt coal and oil residues.

**Physicochemical characteristics:** liquid, pH =  $13 \pm 0.5$ .

**Areas of application:** Schools, hospitals, restaurants, cafes and bars, stadiums, gyms, military, airports, city and community cleaning services, hotels, factories, oil refineries, ports, ships, engines, etc. Suitable for stainless steel.

**Exceptions:** Do not use on metal surfaces that can be corroded such as aluminum, copper and others. Do not use on polished wooden surfaces.

**Instructions for use:** For hard dirt, spray a genuine product on the dirty surface using a spray head. For moderate and almost daily stains, the product is diluted 50%. Suitable for the use of "dip" of stainless steel utensils. For cleaning with a high pressure machine or a rotating cleaning head, fill their container with solid product and adjust the dosage to 'O'.

**Label elements:** CLP Regulation (EC) No 1272/2008: **Danger**

**Hazard statements:** Skin Corr. 1: H314 - Causes severe skin burns and eye damage.

**Precautionary statements:** P260: Do not breathe dust/fume/gas/mist/vapours/spray. P264: Wash thoroughly after handling. P280: Wear protective gloves/face protection/protective clothing/protective footwear. P301+P330+P331: IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. P303+P361+P353: IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. P304+P340: IF INHALED: Remove person to fresh air and keep comfortable for breathing. P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P310: Immediately call a poison center/doctor.

**Substances that contribute to the classification:** sodium hydroxide

**Precautions for safe handling:** Avoid leakages from the container. Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

**Conditions for safe storage:** Minimum Temp.: 5 °C. Maximum Temp.: 30 °C. Avoid sources of heat, radiation, static electricity and contact with food.

**Ingredients:** Contains, inter alia, <5% anionic, nonionic and amphoteric surfactants, 5-15% organic solvents, less than 1% sodium hydroxide and zeolite.

**Packaging:** 5, 10, 20 L.
